

Success Factors for Sustainable Development

...are complex and need to be managed

Priority Model

Clear Priority:
Ecology
superceeds
Society
Society
superceeds
Economy

Global Goals

All 17 United Nations Sustainability Goals are adressed and positively supported

From Local to Global

Global goals are broken down to local level
Local goals support regional, national and global goals

Inter-Generational

Taking responsibility for the next generations
The younger generations do care
Time frame is important

Multilayer Approach

Individuals
Companies
Cooperatives
Politicians
Organizations
Associations
